# Coronavirus

Ahir, la Comissió Europea, juntament amb diversos socis, va posar en marxa la **Plataforma Europea de Dades sobre la COVID-19** [ <https://www.covid19dataportal.org/> ], perquè les dades de recerca disponibles es puguin recopilar i compartir de forma ràpida.

Aquesta plataforma, que forma part de el **Pla d'Acció ERAvsCorona** [

COVID-19 Data Portal

Sequences Expression Proteins Structures Literature

Accelerating research through data sharing

**Sequences** Raw and assembled sequences related to the COVID-19 outbreak, including outbreak isolates and records relating to coronavirus biology. Includes extensive sampling information.

**Expression data** Gene and protein expression data of human genes implicated in the virus infection of the host cells. Identifying cell types and genes with highest expression in SARS-CoV-2 infections.

**About this portal** The COVID-19 Data Portal was launched in April 2020 to bring together relevant datasets for sharing and analysis in an effort to accelerate research and development. It provides a central hub to upload, access and analyse COVID-19 related reference data and specialist datasets as part of the wider European COVID-19 Data Platform.
